

PRESS RELEASE

Fingerprint protection with Carry it Easy +Plus Bio™ for your data

Carry it Easy +Plus Bio™ adds biometric protection

Oct-2006 - CoSoSys announces the release of Carry it Easy +Plus Bio.

Carry it Easy +Plus Bio is an extended version of the award winning Carry it Easy +Plus software that now allows users of biometric portable storage devices such as USB Flash Drives and portable HDDs to protect their valuable data with their unique fingerprint.

Carry it Easy +Plus Bio is fully integrated with the fingerprint sensor on the biometric storage devices and gives users a hacker proof protection for their data that is stored on the portable storage device.

Users that carry their personal data along with their Microsoft Outlook E-Mails, Contacts and Calendar data have the protection they require. Carry it Easy +Plus Bio allows the mobile user to synchronize their Outlook data between different PCs.

Carry it Easy +Plus Bio is a fully portable software that doesn't require any installation on the host PC. It runs directly from the portable biometric storage device and leaves no trace behind after the user disconnected the storage device from a PC. The users' privacy is completely maintained.

The popular features like File, Folder and Desktop synchronization along with Internet Favorites synchronization for Internet Explorer and Firefox and No Trace Internet Browsing are also available and easy to use due to the user-friendly interface.

Carry it Easy +Plus Bio supports synchronization of Microsoft Outlook 2000, 2002 and 2003 and works with Windows 2000 and Windows XP.

Carry it Easy +Plus Bio will be available preinstalled by different leading hardware vendors from fall 2006.

Carry it Easy +Plus is multilingual and available in English, German, French, Spanish, Italian, Portuguese, Dutch, Danish, traditional and simplified Chinese, Russian, Polish, Romanian, Czech, Thai, Korean and Japanese.

Company profile CoSoSys SRL is specialized in the development of software for portable storage device enhancement and enterprise endpoint security solutions. The application portfolio includes functions from password security, intrusion prevention and data synchronization. CoSoSys distributes its products globally through world's leading hardware manufacturers, and also directly to consumers at www.cososys.com. CoSoSys enjoys a continuously growing installation base of users worldwide. The company is headquartered in Cluj-Napoca, Romania and has sales representatives in the United States and Germany.
