## PRESS RELEASE

**Carry it Easy +Plus™ lets you synchronize your Outlook and take it with you everywhere**

**Carry it Easy +Plus™ brings more freedom, mobility and usability.**

June-2006 - CoSoSys announces today the release of Carry it Easy +Plus that allows users to make also their Microsoft Outlook data mobile using a portable storage devices such as a matchbox sized USB Flash Drive.

Carry it Easy +Plus is an extended version of its popular Carry it Easy software that now supports the synchronization of Microsoft Outlook.

Now users of USB Flash Drives and other portable storage devices such as external hard drives or SD cards can make their Outlook data like E-Mails, Contacts and Calendar data portable. With Carry it Easy +Plus the user can also synchronize his Outlook data between different PCs in case he is working on a number of different PCs. Users with a large size Outlook have the possibility to save e-mails only of a certain size or after a specified date.

Carry it Easy +Plus is the most complete, easy to use and cost competitive one application suite for users of portable storage devices. Carry it Easy +Plus completes the existing functionality of Carry it Easy and integrates seamless into the user-friendly interface.

Carry it Easy +Plus lets users keep all the work data like documents, bookmarks and E-Mail data in their pocket on a USB flash drive or any other portable storage of their choice. There is no need to carry a notebook with you if you want to travel light. And the data is easily password protected, so in case your Flash Drive gets in the wrong hands nobody will be able to view your data.
