

## Press Release

### **CoSoSys Endpoint Security Solutions Enter the Croatian Market**

*CoSoSys' data loss prevention, endpoint security and device control solutions premier in Croatia through a new partnership with BitNet*

Zagreb, Croatia, and Bucharest, Romania, May 3, 2011. CoSoSys, developer of Endpoint Security, Data Loss Prevention and portable media security software, announced the launch of its product range in Croatia through their new distribution partner, BitNet. Specializing in security software distribution, network implementation and protection consulting services, the Croatian company BitNet will promote and distribute the DLP and portable media security solution Endpoint Protector and its cloud computing counterpart, My Endpoint Protector, along with other CoSoSys endpoint security solutions such as Secure it Easy and EasyLock.

"We are very pleased to be the new distribution partner of CoSoSys as we consider them one of the leaders in the endpoint security industry and we are looking forward to being able to offer our clients the quality products and solutions they provide. By adding their Endpoint Security software to our product range, we can now offer complete security solutions and end user protection, while also providing localized support and flexibility to the Croatian market" said Ivan Pelaic from BitNet.

"BitNet is a strong partner and we are extremely happy to be collaborating with them on our solutions' launch in Croatia. We are confident that together we will succeed in determining the real endpoint security needs of Croatian companies and better adapt our security solutions to their requirements," explained Roman Foeckl, CoSoSys CEO. "Through this partnership, we aim to introduce businesses in this market to the competitive advantages ensured by choosing a range of security solutions designed to protect companies of all sizes against the threats posed by highly mobile and powerful notebooks, storage devices and smartphones that represent a significant and compulsory part of today's business processes."

CoSoSys' most popular data loss prevention and endpoint security solutions are Endpoint Protector, a product created to minimize internal threats, reduce data leakage risks and control devices connected at endpoints, the cloud computing device control and network security software, My Endpoint Protector and the latest introduced Endpoint Protector Hardware Appliance. Running on both Windows and Mac platforms, CoSoSys' products and technologies are currently being used by more than 20 million users and portable devices worldwide. All CoSoSys software solutions can be tested for free at <http://www.EndpointProtector.com>

### **About BitNet**

BitNet specializes in providing companies with security solutions against external threats through endpoint security, antivirus protection and employee management software.
