

## Press Release

### CoSoSys Endpoint Security Solutions Premier in Cyprus

*CoSoSys' data loss prevention, endpoint security and device control solutions launched in Cyprus' business segment in partnership with ZERO1 CONSULTANTS*

Nicosia, Cyprus, and Bucharest, Romania, June 27, 2011. CoSoSys, developer of Endpoint Security, Data Loss Prevention and portable media security software, announced the availability of its product range in Cyprus through their new partner, ZERO1 CONSULTANTS. The new reseller of CoSoSys' security software specializes in providing top of the line turnkey solutions for information security and risk management, as well as network protection and infrastructure design and implementation consulting. ZERO1 CONSULTANTS will raise awareness and make available in Cyprus the DLP and portable media security solution Endpoint Protector, its cloud computing version, My Endpoint Protector, as well as other CoSoSys endpoint security solutions, including Endpoint Protector Basic and EasyLock.

"We are very pleased to partner with CoSoSys, one of the top players in the endpoint security industry, and we are confident our clients will greatly benefit from their range of quality products and solutions. The integration of CoSoSys' DLP, portable media and endpoint security solutions in our own offering enables us to provide and promote complete security solutions and end user protection. Our offering will also include the advantages of localized support and higher flexibility based on our intimate knowledge of the domestic market," said Mario A. Joannou, Managing Director, ZERO1 CONSULTANTS.

"ZERO1 CONSULTANTS will bring valuable input in determining the real needs of Cyprus businesses and end users when it comes to endpoint security and data loss prevention, thus allowing us to better adapt our solutions to meet their requirements. We are extremely pleased to have such strong partner with whom to collaborate on our product range's launch in this country," explained Roman Foeckl, CoSoSys CEO. "The main purpose of our agreement is to introduce the Cyprus business market to a range of security solutions designed to both protect companies of all sizes against the threats posed by today's highly mobile and portable business process and offer significant competitive advantages through cost effectiveness, ease of use and minimum learning process."

Endpoint Protector, a DLP solution created to minimize internal threats, reduce data leakage risks and control devices connected at endpoints, the cloud computing device control and network security software, My Endpoint Protector, and the latest introduced Endpoint Protector Hardware Appliance are CoSoSys' most popular data loss prevention and endpoint security solutions, each of them running on both Windows and Mac platforms. CoSoSys' products and technologies are currently being used by more than 20 million users and portable devices worldwide. All CoSoSys software solutions can be tested for free at <http://www.EndpointProtector.com>
