

## **Endpoint Protector 2009 makes its way to the Hungarian market**

*Nollex brings CoSoSys' device control and data loss prevention solution to Hungary*

Budapest, Hungary, and Bucharest, Romania, September 14, 2010. CoSoSys, a leading developer of endpoint security and portable storage device applications, announced today the distribution partnership in Hungary with Nollex International, an innovative player in the local data security consulting field. The partnership is meant to grant Hungarian companies access to CoSoSys' top of the line Data Loss Prevention (DLP) and device control solution, Endpoint Protector 2009.

"We are delighted to join CoSoSys as their local partner and serve our customers and resellers with their excellent data loss prevention solutions. We are looking forward to a fruitful partnership to the safety and security of those who wish to keep their confidential and /or private information flow under control" said Kecskés Győző, Nollex.

"Nollex is a valuable partner and we are extremely pleased to have teamed with them to better adapt our endpoint security solutions to the Hungarian market. We are confident Endpoint Protector will provide local companies the competitive edge they need, by protecting them against the threats posed by the highly mobile and portable modern storage devices, without restricting their use of such gadgets," added Roman Foeckl, CoSoSys CEO.

Endpoint Protector 2009 is designed to minimize internal threats, reduce data leakage risks and control devices connected at endpoints. It allows IT departments to proactively take control of the devices' internal use, while tracking all data transferred in or out of the protected network and enforcing encryption of data in transit on portable devices. The new Endpoint Protector 2009 version is available as a free 30 day trial for Windows XP, Vista, Windows 7 and Mac OS X or online demo at: <http://www.EndpointProtector.com>.

### **About Nollex**

Nollex International is specialized in providing best-of-breed IT security solutions and services for businesses of all sizes and home users. The company sells and supports a fine selection of IT security products on the fields of one-time-password user authentication, patch management, anti-virus, anti-spyware, anti-spam, personal and business firewalls, email management, data and email encryption, system restore, data loss prevention, computer diagnostics, hardware monitoring, network audits and device control.
