128bit AES Data Encryption*

The crypto module provides government-approved 128bit AES CBC-mode encryption to protect your data.

Portable Outlook and Outlook synchronization

Have all your e-mails, contacts and calendar with you and keep them in sync on different PCs at work, at home and on the road.

SafeLogin Website Password Manager for Internet Explorer

Save website passwords and logins with just one click. Access your favorite websites faster and have your passwords always on your portable device. SafeLogin makes website logins much safer as it protects you against keyloggers that might be installed on PCs.

PC-Lock - Screensaver Lock

PC-Lock turns your portable storage device into the key to your PC. This makes logging in and out of your PC much more convenient.

Favorites / Bookmarks Sync for Internet Explorer & Firefox

Keep all your links with you and access them from any computer.

Data Compression

Ever wanted your portable storage device to have some extra megabytes? Carry it Easy +Plus allows you to compress your data on-the-fly and save space on your drives.

No Trace Browsing with Internet Explorer & Firefox

Safely browse the internet on other PCs without leaving any traces that could reveal what you have viewed on the internet.

Desktop, Folders and My Documents synchronization

Instant synchronization of your documents, files and folders. With a couple of clicks, you carry all the files you need.

Sync All / Auto Sync

Set up your synchronization or schedule a backup and you can stop worrying about manually backing up your data to a portable storage device.

Portable Microsoft Outlook Express / Windows Mail

Manage your contacts and e-mails while on the move. You can do this easily on PCs that have Outlook Express or Windows Mail.

USB Drive Lost & FoundTM / StuffBak Loss Protection (optional)

Let the finder know who you are but do not let him see what data is on your Flash Drive. Optionally you can also use the StuffBak Loss Protection Service that makes returning a lost device easy for the finder.

*Hardware based encryption or partitioning to protect data is available for supported hardware.

Carry it Easy +Plus is fully portable. No installation is necessary on your PC. The software can be used anywhere at anytime because it is always on your portable storage device.
